Notes

1. The 2026 regatta has resulted in a deficit, largely due to the increase in BROE fees (British Rowing's "regatta tax") and more medals purchased than in recent years.
2. Total entry numbers were similar to last year but down, with about 1.6% fewer crews on Saturday and about 3% fewer on Sunday.
3. As for the past five years, no car parking fees were collected and there was no income from sponsorship. Pitch fees from trade stalls was up on last year, but income from subscribers continues to decline. In 2026, overall income decreased by about 3% on the previous year (note: entry fee rates have remained the same for five regattas).
4. Hire costs for site and equipment increased by about 9.5% (and again by more than average annual inflation). Overall, expenditure increased by about 19.5%.
